Common rail high pressure test kit

JPCRK

Updated !

This new common rail high pressure test kit allows to carry out the complete diagnosis of the system, since it comes equipped with all the necessary elements to perform the dynamic pressure test, the maximum pressure test of the pump, check the pressure regulators and injector leak test.

The following new parts have been included, these parts are essential to be able to check modern engines

- 1 - High pressure hose M16x100 for Bosch CP4.1 and CP4.2 pumps
- 1 - Dummy regulator for Bosch CP4.1 and CP4.2 pumps
- 1 - Pump outlet blank M16x100 for high pressure test on Bosch CP4.2 pumps
- 1 - High pressure hose M14x100 for Fiat, Opel and BMW engines test
- 6 - Injector pipe blanks M14x100 for injector leak testing on Fiat, Opel y BMW engines

Contents	
Quantity	Description
1	2000 Bar stainless steel gauge with safety valve
2	High pressure hose M12x150 / M12x150
2	High pressure hose M12x150 / M14x150
1	High pressure hose M12x150 / M14x100
1	High pressure hose M12x150 / M16x100
2	Hose fitting adaptors M12x125
2	Hose fitting adaptors M14x125
6	Injector pipe blanks M12x150
6	Injector pipe blanks M14x150
6	Injector pipe blanks M14x100
9	Dummy regulators
