

LINE PLUG PLIERS FOR THE FUEL SYSTEM, BRAKING SYSTEM AND AIR CONDITIONING SYSTEM, ETC.

NEW

TECHNICAL DATA

Length: 100 mm (black) / 90 mm (blue)
Opening width: 30 mm (black) / 20 mm (blue)
Rubber cones:
1 x Ø17.5 mm swivelling,
2 x Ø17.5 mm fixed

COMPONENTS

1 x plier type 1 **BLACK**, single-sided with openings Ø8.4–10.8–13 mm
1 x plier type 2 **BLUE**, double-sided

- The set of pliers is required to clamp hoses during repairs or component replacement, preventing fluid leakage and the ingress of contaminants.
- Suitable for various lines, including brake lines, fuel lines and power steering systems.
- The **black pliers** feature a swivelling cone that automatically adapts to the required sealing angle.
- The **blue pliers** seal both sides of a fuel or brake line connector.
- Easy to install; knurled handles ensure a secure grip during use.
